

# What Happens to the Soul of a Narcissist?

Experts believe narcissists are damaged to their core by extreme abuse and/or neglect experienced in early childhood. They continue on a downward spiral that eats away at their soul as life goes on.

## **DOES A NARCISSIST HAVE A SOUL?**

Yes! If you are a living human being, you have a soul. Maybe the better question is what or who is driving his/her soul and how it is affecting him/her.

## **ARE NARCISSISTS LOST SOULS?**

Narcissists are indeed lost souls. Their souls become lost as they feel such depth of shame that they can no longer stay in touch with their inner being.

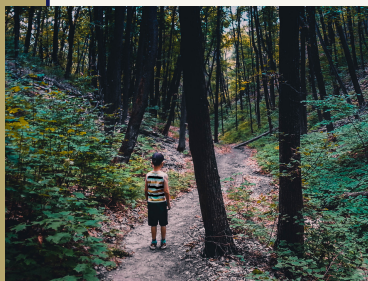

## **CAN YOU HAVE A SOUL-TIE WITH A NARCISSIST?**

So, yes, you can have a soul-tie with a narcissist. Narcissists cannot truly connect with anyone outside of themselves. But that does not mean you don't feel permanently and deeply connected to them. Your healthy soul did not understand what it was attaching to.

## **WHAT HAS HAPPENED TO THE SOUL OF A NARCISSIST?**

The narcissist's soul was squelched in early life. It didn't have a chance. Whether that was by genetics or neglect/abuse, they were not able to develop their being. They felt such shame. that they had to develop an alternate reality. That alternate reality is what helped them survive the rest of their childhood.

## **WHAT WILL HAPPEN TO THE SOUL OF A NARCISSIST?**

This is actually the scary one, especially in the Christian world, where what you do in your lifetime affects how you will spend eternity. They have no ability to feel empathy. They only concentrate on what will further their own desires. And that puts their future soul in tremendous danger.
